

# BioGeometry & BioSignatures Workshop

Date: Saturday, June 27, 9am to 5pm

Location: 'De Roos' (Vondelpark) Amsterdam, NL

Instructor: Doreya Karim

Fees: €480 (includes Ibrahim Karim Universal Pendulum & \$200USD credit towards the full online Foundation Training )

Founded by Egyptian architect and scientist Dr. Ibrahim Karim, BioGeometry — often called 'Nature's Own Design Language' — is the result of breakthrough research identifying the specific energy codes naturally present in the earth's power spots.

This one-day workshop offers a practical introduction to BioGeometry, including hands-on methods to detect and harmonize imbalances in the body while amplifying your resonance with the centering quality of BG3. **A special focus will be on BioSignatures — precise linear diagrams that mirror the body's vital energy patterns and, when introduced into the surrounding energy field, restore correct energy flow, clear blockages, and enhance qualitative balance.** Open to all, this training also introduces the Physics of Quality, offering insights into the universal laws of subtle energy and the distinction between frequency and quality.

**The science of BioGeometry revives Ancient Wisdom through a modern alchemy of shape and energy**

BioGeometry has 50 years of successful applications— from the 'Miracle of Hemberg' reducing electro-sensitivity and Egypt's National Virus C Project achieving leading results, to eliminating parasites and boosting apple yields, and raising antibiotic-free chicken. Collaborations with Dr. Masaru Emoto revealed perfectly structured water crystals, while applications in aviation, classrooms, and Wi-Fi radiation studies further showcase its ability to harmonize environments and enhance quality of life.
